Leiva Díaz, Julio

BIO

FrontEnd Developer/Engineer with more than 6 years of experience and focused on Vue and React. I have been part of CORE teams performing tasks such as the development of a Design System, as well as the creation and governance of monorepos, CI/CD pipe implementations, documentation strategy. I also have a great deal of experience wrestling with APIS and do my best to keep up with the most important changes in the front-end ecosystem.
